PETRIKIN MEMORIAL HALL!

Corner Stone Will Be Laid Sunday Afternoon.

WITH APPROPRIATE CEREMONIES

Exercises at 3:30 P. M.—Rev. George Israel Brown to Lay the Stone. The President of the W. C. T. U. Will Place a Box Therein—Addresses By Resident Ministers.

A FULL DESCRIPTION OF BUILDING

Work is progressing rapidly on the beautiful building now being erected by the Woman's Christian Temperance Union of Bellefonte on the ground on High street so generously donated them by the late Marion Petrikin. This building is to be known as Petrikin Memorial Hall, in memory of this Christian lady whose lovely life and character has so endeared her to every citizen of her native town.

On next Sunday afternoon at 3:30 o'clock the corner-stone will be laid with beautiful and appropriate services befitting so auspicious an occasion.

The corner-stone will be laid by Rev. George Israel Brown, rector of St. John's Episcopal church, of which church Miss Petrikin was so long a conscientious and consistent member.

Mrs. John P. Harris, president of the Woman's Christian Temperance Union of Bellefonte, will go through the ceremony of placing a box in the corner-stone which shall contain a sketch of the building and Miss Petrikin, together with the names of those who have so generously contributed toward the building's erection, county papers, coins, etc.

The program of exercises will be as follows:

Music	Orchestra and Choir
Reading Scripture	Rev. W. H. Brown
Prayer	Dr. Wm. Laurie
Music	
Short Address	Dr. W. P. Shriner
Music	
Short Address	Dr. H. C Holloway
Placing of the Box	Mrs. John P. Harris
Laying of Corner Stone	Rev. G. I. Brown
Hymn	
Closing Prayer	Rev. T. W. Perks
Benediction	Dr. Laurie

Petrikin Memorial Hall was designed by Architect Robert Cole, of Bellefonte, and is complete in every detail and will bring to the projectors sufficient income to be self-sustaining.

The size of the structure is 60x122 feet and it is to be three stories high. The side and rear walls are to be of brick and the front of brown stone and of handsome design. On the ground floor will be two large rooms and a large hallway running through to the auditorium which will accommodate about 800 people. There will be a large stage which will seat 150 people, and underneath the stage will be dressing rooms. The room on the left, facing High street will be occupied by the W. C. T. U. and the one across the hall will be used as the Public Library. The second and third floors will have an entrance from the front and will be divided into six rooms, each having a separate bath room with all other conveniences.

The life and death of Miss Marion Wallace Petrikin, to whose memory this building is to be a fitting tribute, is still fresh in the minds of our readers. She died November 23rd, 1899, in the modest little home which she had occupied for so many years and which stood upon the site where the present handsome edifice is being erected. She was born in Bellefonte in the early thirties and belonged to an old and historic Centre County family. She was the daughter of Hon. James M. and Elizabeth Wallace Petrikin. Her father was the recognized leader of the famous Centre County bar of his time.

In April 1898 she was brought into prominence by the public presentation to her of the sword of her brother, Lieut. Hardman P. Petrikin, who was killed at the battle of Antietam. While the Lieut, lay dying he handed the sword to Major Wm. Robbins of the Fourth Alabama and requested him to present it to his sister. The Lieutenant died before he had time to tell where his sister lived, and after an interval of nearly thirty-five years he came to Bellefonte and made a public presentation of the sword to Miss Petrikin.

At her death she bequeathed to the W. C. T. U. of which she was an active and ardent member, her real estate consisting of house and lot on High street in order that they might have a permanent abode from which they might prosecute their work. The people of Bellefonte for ages to come will bless the memory of Marion Wallace Petrikin.

"THE WILLOWS."

A Beautiful Cottage Owned by Bellefonte Men.

Situated along the banks of Spring creek is a beautiful little cottage which will be used during the hot summer months as a club house. It is on one of the prettiest spots along this creek which is noted for its grand scenery. The cottage sits at the foot of a high hill and is twenty-five feet above the level of the water. It is a four-roomed structure with two large porches thirty feet long in front. A beautiful lawn ninety feet wide and two hundred feet long stretches from the cottage to the stream. The boys have arranged to put boats on the water which will afford a great deal of pleasure in rowing. A spring with water ice-cold the year round is located about twenty feet from the cottage.

To get to this beautiful "little spot," which covers nine acres, you go to Roopsburg and at the flour mill turn to the left. It is off from the public road about two hundred yards. You must either ford the creek or walk over a draw-bridge made by the boys themselves. The cottage is being neatly furnished and carpeted and will be painted white and trimmed in green. Paths made of crushed limestone extend from one end of the plantation to the other.

The men who own this beautiful little summer resort are Messrs. Jacob Grose, Frank Williams, Deputy Sheriff Harry Jackson, George Beezer, Joseph Lose and David Kelley.

Capt. Wainwrights Daughter Designs a Banner for a Class in St. John's Episcopal Sunday School.

On Sunday afternoon at 4 o'clock at a special service held in St. John's Episcopal Sunday school H. C. Quigley Esq., on behalf of the doners presented a handsome banner to the Sunday school class having the largest percentage of attendance during the year.

This banner, which was a very handsome one, was designed by Miss Wainwright, of Annapolis, Md., and was made by Miss Wetherill, of Philadelphia, and Misses Caroline and Anna Valentine of this place.

Miss Wainwright and Miss Wetherill were the guests of the Misses Valentine during the past week.

Miss Wainwright, who designed the banner, is a daughter of Capt. Richard Wainwright, who commanded the Gloucester at the battle of Santiago, and who received Cervera on his vessel immediately after the battle. Capt. Wainwright is now the superintendent of the Naval Academy at Annapolis.

The Coming Organ Recital.

The organ recital to be given in the Methodist church this evening, will, without a doubt, be the musical event of the season. The organist, Miss MacDowell, of Harrisburg, needs no introduction to a Bellefonte audience. Her brilliant performance at the recital she gave here last April at the re opening of the Methodist church is a sure guarantee that her program next Thursday evening will be of a superior character in selection and execution. The vocal feature of the evening's entertainment will be looked after by Miss Hench, of Harrisburg, whose beautiful soprano voice has frequently been heard in Bellefonte, Miss Worley, of Harrisburg, a contralto soloist of rare merit and Mr. L. H. Kinnard of the same city who is recognized as the leading baritone in the capitol city, a distinction that gives him a high place in musical circles.

The Death of Robert Bierly.

Robert Bierly, a prominent citizen, of Milesburg died at his home in that place Monday morning at 11.15 o'clock of kidney trouble. He was a native of Centre county and was 63 years of age. He is survived by his wife and three sons. He also leaves two brothers, Nathaniel and Lewis Bierly, of Milesburg and two sisters, Mrs. Rebecca Watson, of Galeston, Potter county, and Agnes Teller, of Milesburg.

Deceased was a life long member of the Presbyterian church. He was one of the early settlers of Central City and has resided there for the past thirty years. The funeral took place this morning at 10 o'clock Rev. Walter F. Carson officiating. Interment in the Union cemetery at this place.

A Sensible Opinion.

Judge Stewart, of Franklin county, handed down an opinion on Thursday having a direct bearing on public sales of real estate. In effect it means that fictitious bids constitute a violation of the law, and that the practice so often resorted to, known as 'puffing,' is nothing else but fraud. The court holds that any one guilty of such bidding is a party to the fraud and can be held responsible for damage sustained by the purchaser.

CORAY AGAIN NOMINATED

Named for Treasurer Tuesday by Democratic State Committee.

NOT ONE DISSENTING VOTE.

Mr. Coray's Nomination Was Certified to the County Commissioners Throughout the State for Printing on Official Ballot.

COMMITTEE TO NOTIFY CORAY.

HARRISBURG, Oct. 23.—The Democratic state committee held a special meeting in this city Tuesday to fill the vacancy on the ticket created by the decision of the Dauphin county court declaring invalid the nomination of Representative E. A. Coray, Jr., of Pittston, for state treasurer. Mr. Coray is the nominee of the Union and Municipal League parties and was nominated by the Democrats at a recent meeting of the state committee to fill the vacancy created by the withdrawal of Representative Andrew J. Palm, of Meadville. At the same meeting the six Philadelphia members of the committee were expelled for party disloyalty on recommendation of the Hesson [illegible]ittee appointed by the recent state convention to inquire into party affairs in that city and their places filled by others.

Former State Chairman Garman and Patrick Donahue, one of the deposed members, brought suit in the Dauphin county court to test the legality of Mr. Coray's nomination. They contended that his nomination was illegal, because the meeting at which he was nominated was illegally constituted and that the Philadelphians had been irregularly deposed. Their contention was sustained by the court and to avoid further trouble the deposed members were given notice of yesterday's meeting. A conference of party leaders was held last night, at which it was agreed to renominate Mr. Coray and to take no further action for the present in the Philadelphia matter.

The meeting was held in the board of trade rooms and was attended by seventy-five of the eighty-one members, including the deposed members from Philadelphia. The meeting was called to order at 2 o'clock by State Chairman Creasy. After the meeting was organized, Mr. Creasy explained that the purpose was to fill the vacancy created by the withdrawal of Mr. Palm, no mention being made of Mr. Coray's candidacy or the rejection of his certificate by the court. John B. Head, of Greensburg, moved that the withdrawal of Mr. Palm be accepted. The motion was unanimously adopted. Charles Donnelly, of Philadelphia, inquired of the chair if there was not a meeting of the committee held in this city on October 11. The chairman stated that the court has ruled that that meeting was illegal and no notice could be taken of it.

Colonel Frank J. Fitzsimmons, of Scranton, was then recognized to present the name of Mr. Coray.

Mr, Fitzsimmons made a brief speech, after which Mr. Coray was nominated by a vote of 73 to 0. His nomination was promptly certified to the state department and was certified Tuesday night to the county commissioners throughout the state for printing on the official ballot. The chairman was directed to appoint a committee of five to notify Mr. Coray of his nomination, after the meeting adjourned.

Mr. Garman was here Tuesday, but he did not attend the meeting of the state committee. He made an examination of Mr. Coray's certificate after it was filed and stated that it was in proper form.

"I have no further objections to Mr. Coray's nomination," said Mr. Garman, "except the objections that all good Democrats have to being forced to vote the Republican ticket."

Chairman Creasy has appointed the following committee to notify Mr. Coray of his nomination: A. J. Palm, of Crawford county; George R. Dixon, of Elk county; Colonel Frank Fitzsimmons, of Lackawanna county; John T. Fischer, of Northumberland county and Charles E. Ingersoll, of Philadelphia.

In the New I. O. O. F. Hall.

Penn's Valley Lodge No. 276 of the I. O. O. F., of Pine Grove Mills, rejoices in one of the most elegant hall buildings in the county. The building, just finished, will be dedicated with imposing ceremony about Christmas, but the Odd Fellows will hold their next meeting in the building, inasmuch Thursday they put down a carpet which their wives had graciously sewed, and moved their furniture into the new meeting place. The hall was entirely paid for upon its completion,—a fact which gives a hint as to the good standing of Lodge No. 276.

COCHRAN—McCORMICK.

Notable Wedding Event Celebrated at Williamsport.

Bellefonte society is much interested in the Cochran-McCormick wedding which took place at Williamsport Monday night, as both young people are quite well known here and their fathers are partners with Gov. Hastings in the banking business at this place.

From the Philadelphia Press dispatch dated Williamsport we take the following particulars:

Never has Williamsport witnessed a more brilliant social event than that which occurred last evening, when Miss Nellie McCormick, daughter of ex-Attorney General and Mrs. H. C. McCormick, became the bride of Joseph W. Cochran, son of Senator and Mrs. J. Henry Cochran. More than 1000 invitations had been issued, and the list of guests was a notable one, including men and women who rank as leaders in the social, literary, financial and political world.

The wedding took place at 8:30 o'clock in the First Presbyterian Church, which was beautifully decorated with palms, ferns and Southern smilax.

Miss Martha McCormick, of that city, was maid of honor. She was attired in a dress of striped white liberty gauze, with green trimmings, and carried a bunch of ferns. The bridemaids were Misses Avis Cochran, Carmen Ryan, of Williamsport; Mrs. J. K. Secor, of Toledo, O.; Miss Caroline Cochran, of Sewickley and Miss Miriam Bucher, of Lewisburg. Miss Marie Wilson, of New York city, who was to have been one of the bridesmaids, was called home on Sunday by the illness of her father. The bridesmaids wore gowns of white liberty gauze with pink velvet trimmings and carried pink roses and lilies of the valley. Garret Cochran, a brother of the bridegroom, was the best man. The ushers were Messrs. Robert M. Dougal, of Milton; John H. McCormick, of Williamsport; W. Orville Hickok, 3d, of Harrisburg; Lewis G. Beers, of Trenton and Addison Kelly, of Princeton, N. J.

The ceremony was performed by the Rev. William Dayton Roberts, pastor of the church, the Episcopal ring service being used. The bride was given away by her father. Prof. Roscoe Huff presided at the organ.

The bride was attired in a gown of white satin, trimmed with duchess lace, and wore her mother's wedding veil, which was fastened with orange blossoms. She carried lillies of the valley.

Immediately following the wedding a reception was held at the home of the bride's parents on West Fourth street.

It is estimated that the value of the presents received by the bride was nearly $100,000.

Among the distinguished guests present were ex-Governor and Mrs. Hastings, Col. and Mrs. Wilbur F. Reeder, Col. and Mrs. J. L. Spangler, and Mr. and Mrs. W. L. Malin, of Bellefonte.

Academy Defeats Williamsport High School.

Saturdays game of foot ball at the Driving Park between the elevens of the Bellefonte Academy and the Williamsport High School was an exceptionally fine game though several serious accidents resulted to the visiting team. Those injured were Weiss, three ribs broken, Kline, shoulder broken in two places and Campbell internal injuries. The manager of the Williamsport High School team wishes it announced that he exonerates the Academy team from all blame. The contest was absolutely free from personalities and the casualities, merely the result of unintentional accident. The score was Academy 13; W. H. S. 0. Line up.

Ten Members of the Ninth Infantry Slain.

MANILA, Oct. 21.—Five hundred Bolcros attacked a detachment of 46 men of the Ninth infantry, at Bangajon, on the Gandara river, Island of Samar, Saturday, killing ten and wounding six. The remainder of the company arrived on the scene in time to prevent further slaughter and routed the enemy, killing over a hundred of them. It is believed that the enemy only retired for reinforcements.

As soon as the news was received at Catbalegan two gunboats were dispatched, General Smith going in person to the scene.

SENSATIONAL ROBBERY!

Thieves Steal $74,610 in Stamps From a Postoffice Vault.

THIS TOOK PLACE IN CHICAGO

Work of Getting Into the Strong Box Had Consumed Much Time, But the Burglars Were Finally Successful.

TOOK PLUNDER OFF IN A WAGON

CHICAGO, Oct. 22.—Officials of the postoffice discovered yesterday that the institution has been robbed of stamps to the estimated value of $75,000. The same methods used in the recent gold robbery in San Francisco were brought into play, for the robbers had gained access to the vaults through a secret tunnel under the temporary postoffice building, at Michigan avenue and Washington street.

The robbers gained an entrance to the place from where they worked, under the postoffice, by breaking open a little door in the board wall which surrounds the foundations of the building. The postoffice, being a temporary structure, is on poles, and there is a space of three feet between the floor of the building and the ground. After getting through the trapdoor they crawled forty feet to a two-foot brick wall that separated an addition from the main structure. This they broke through.

ROBBERS MADE GRAVE MISTAKE.

Then they crawled nearly 300 feet under the main floor of the postoffice to a point directly under the brick foundations of the various vaults. By mistake they chose the south vault to operate on, containing the wholesale supply of stamps. If they had taken the next to the north they might have got $600,000 in cash and stamps.

First breaking through the two-foot brick foundation, they bored a section out of the thin pine floor and began operations on the bottom of the vault. This was one-quarter inch steel. In it they bored 97 holes, none of them through until the whole job was ready. Then a few moments' work with the drill and a hammer broke a section 19 inches square out of the floor of the vault and access was easy.

They took from the vault booty enough to load a good sized wagon. In the vehicle they drove away, and beyond Michigan avenue no trace of them can be found. The amount of stamps was exactly $17,862 worth of one-cent stamps, $33,258 worth of two-cent stamps, and enough miscellaneous to make the total $74,610.

NO CLUE TO WORK UPON.

No trace was left by the men other than the work done on the walls and floors, except a dry-cell electric battery used to supply a light in the work. This was found on the ground under the vault. There are also finger marks and numerous tracks in the mud. It is believed by the police that at least three men worked on the job.

Postmaster. E. E. Coyne is in New York. In his absence the search is under the charge of Inspector J. G. Stuart, who has a force of six inspectors and 20 city detectives at work. Every city in the country has been notified and all trains are being watched. Owing to the fact that the stamps are nearly all of low denomination it will be extremely hard to catch the robbers in the disposition of their booty. Inspector Stuart says he is certain the robbers were men familiar with the plan and construction of the postoffice. There is usually a sum of money approximating $25,000 in the vault entered.

PROBABLY A SUNDAY JOB.

Entrance to the vault and the extraction of the stamps probably took place during Sunday or Sunday night, when there was the least occasion for opening the doors of any time during the week.

Opportunities for undisturbed tunneling into the temporary postoffice are good in the locality of the lake front. At night there are few persons in the vicinity east of the building, and work of that kind could be carried on in the darkness with little chance of discovery. It seems probable that the work took weeks to complete.

Bellefonte High School Eleven Defeats Lock Haven High School.

The Bellefonte High School foot ball team defeated the Lock Haven High School eleven on their own grounds in a well played and interesting game at Lock Haven on Saturday afternoon. Score 11—5 Line up:

B. H. S.	Position.	L. H. H. S.
Brouse	Left End	Martin
Taylor L Half Back (Capt)		Blackburn
Robb	Left Tackle	Holmes
Fox	Left Guard	Shoemaker
Lose	Centre	Chambers
Noll	Right Guard	Goodman
Fasig	Right Tackle	Kidd

—Mrs. J. R. Bible, of Potters Mills, who about two weeks ago, went to the Williamsport hospital to have an operation performed, which was done on Monday, died at that place on Tuesday night at 12 o'clock, aged about 35 years. She is survived by her husband and five children, and was a member for many years of the Presbyterian church. Her remains arrived home on Thursday morning.

—Mrs. T. Briddleman, of Parshallville, Mich., was troubled with salt rheum for thirteen years and had tried a number of doctors without relief. After two applications of Banner Salve, her hands became better and in a short time she was entirely cured. Beware of substitutes. All druggists.

—William Beckwith, a huckster residing in Port Matilda, met with a painful accident a few days since, while making his return trip home from Philipsburg, in attempting to get out of his wagon his feet in some way became entangled in the lock rigging causing him to fall under his horses, one of which trampled on his leg breaking it between the foot and knee joint. Dr. Harshbarger reduced the fracture in the best possible manner

What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but sometimes inherited.

How do they manifest themselves?

In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor and general debility.

How are they expelled? By

Hood's Sarsaparilla

which also builds up the system that has suffered from them.

It is the best of all medicines for all humors.

A Pleasant Surprise Party.

The neighbors and relatives of A. J. McClintick, Esq., of Lamar, Clinton Co., gave that gentleman a surprise on Tuesday the 15th inst., which will be long and pleasantly remembered by him.

On Monday he was invited to go to Howard and remained there over night, on his return the following morning he found his home in the possession of about seventy-five of his friends and neighbors, who had by previous arrangement assembled to celebrate his 73rd birthday, nor did these good people come empty handed, for after boxes and baskets had been opened there was found enough substantial provision, besides dainty dishes of all kinds to supply a small army, and in addition Mr. McClintick was the recipient of many beautiful and appropriate presents.

The day was most delightfully spent in music, games and sweet converse and in the evening, after partaking of a bounteous repast, the visitors retired to their homes, and it was the wish of each and every one that the hospitable host might be spared to enjoy many more such occasions.

Spanish-American War Veteran Married.

Tuesday October 15, at 12 o'clock noon, Merl H. Harper, of Pittsburg, and Miss Mayme E. Barnes, of Tyrone, were united in marriage. The ceremony took place at the home of the bride's sister, Mrs. H. B Wilson, of Pittsburg, in the presence of only a few friends. The services were performed by Rev. J. A. Johnson, of the Methodist Episcopal church. The bride is the daughter of Mr. and Mrs. George Barnes, of Tyrone. She is an amiable young lady and well qualified to become mistress of her own home. The groom is a flagman on the Panhandle railroad and is a steady and upright young man. After the nuptial knot had been tied and a wedding dinner served, the bride and groom started on a wedding trip to Chicago, Milwaukee, and other western cities, after which they will return to Pittsburg where they will make their future home.

The groom formerly resided near Snow Shoe and served during the Spanish—American war as a member of Co. B, 5th Pennsylvania Volunteers.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at F. Potts Green's Drug Store.

A Teamster Drowned.

ENGLISH CENTRE, Oct. 17.—Yesterday morning about 10 o'clock, Harry Haines, a teamster, aged 28 years, was drawing logs to repair the dam at Otter run, about three miles from this place. The horses stepped into a deep hole in the dam and Harry made an effort to get them out. One of the horses in his plungings struck Harry on the forehead with his hoof. The young man sank under the water. He was taken out shortly after but he was dead.

His mother is a widow and Harry was her only support. Two years ago her husband died suddenly while he was away on a visit, and three months ago her sister died.

A DARWINIAN THEORY.

Why the Drowning Man Always Throws Up His Hands.

The usual idea that a drowning man is stretching out his hands for aid or "catching at straws" is not altogether satisfactory. A possible explanation has lately been suggested, and this supposes that the drowning man, losing all his acquired habits and even some of those inherited from more recent parents, in his terror goes back to the instinctive movements of his arboreal ancestors, and the movements of the drowning man are those of a frightened ape seeking safety by clinging to the nearest tree.

The movement is certainly instinctive, for it can only be eliminated by considerable training and voluntary efforts, and yet it is fatal to the individual, for the specific gravity of no human body is so nearly that of water that the removal of the arms from the supporting fluid at once sinks the face beneath the surface. In cases of so called "cramps" the victim, often a highly trained swimmer, generally throws up the hands, but these cases are probably due to heart failure, and a similar movement takes place on land when the subject receives a fatal heart wound, and it is even a common expression of shock or astonishment. The ordinary movements of walking or running would keep a man's face above water, but these curious climbing movements of both hands and feet make floating impossible and are responsible for many deaths by drowning.—Cincinnati Enquirer.

DISCOVERED BY ACCIDENT.

How the Paving Value of Asphalt Was Brought to Notice.

All forms of bituminous pavements, whether manufactured from natural or artificial asphalt, are in fact artificial stone pavements. The industry started with the use of the natural rock asphalt from the mines in the Val de Travers, Canton Neufchatel, Switzerland. The mines were discovered in 1721, but it was 1849 that its utility as a road covering was first noticed. The rock was then being mined for the purpose of extracting the bitumen contained in it for use in medicine and arts. It is a limestone found impregnated with bitumen, of which it yields on analysis from 8 to 14 per cent.

It was observed that pieces of rock which fell from the wagon were crushed by the weight of wheels, and under the combined influence of the traffic and heat of the sun a good road surface was produced. A macadam road of asphalt rock was then made which gave very good results, and finally in 1854 a portion of the Rue Bergere was laid in Paris of compressed asphalt on a concrete foundation. In 1858 a still larger sample was laid, and from that time it has been laid year by year in Paris. From Paris it extended to London, being laid on Threadneedle street in 1869 and Cheapside in 1870 and in successive years on other streets.—Municipal Journal and Engineer.

No Limit to New Ideas.

There never has been a time when the individual has stood for so much as he does at present. There has never been a time when individuality and personal initiative brought such amazing rewards. There never has been a time when the individual could or did exert so much influence as at present. There is no individual today so insignificant that, if he became the medium of a new or potent ideal, he would be prevented by uncontrollable conditions from expressing his idea and reaping his just reward.

In all ages up to this man has been, owing to his limitations of physical force, a plaything of conditions, a slave of his environment. Skill and intelligence were but two of the factors in his progress, bounded and restrained by limitations to their employment. Now, however, with universal energy at the disposal of each individual, this terrestrial sphere scarce puts bounds to his field of influence.—Cassier's Magazine.

Fruit Acids Kill Germs.

A writer in a scientific periodical states that it is not generally known that fruit acids are germicidal. "The juice," he says, "of limes and lemons is as deadly to cholera germs as corrosive sublimate or sulphur fumes or formaldehyde or any other disinfectant. It is so powerful a germicide that if the juice of one lime or lemon be squeezed into a glass of water that is then left standing for ten or fifteen minutes the water will be disinfected. It makes little difference where the water has been obtained or whether it has been boiled or filtered." As boiled or filtered water is not always obtainable this is worth remembering.

What You Put In Your Mouth.

It is through the mouth that most malignant germs find their way into the body, and therefore one would think that it was hardly necessary to warn people against the risks they are running in using it as a sort of third hand. One would imagine that hardly any one needed cautioning against holding money with the lips, and yet an immense number of otherwise thoroughly cleanly people indulge in this dirty, dangerous practice.

Jonathan Schenck.

Jonathan Schenck, J. P., one of Howard township's best citizens died on Tuesday evening at the old homestead, one mile east of that place. He was aged about 82 years and was a man well known and loved by all. He had been a sufferer for about two months with a complication of diseases. The funeral took place on Thursday, October 17. Rev. I. N. Bair officiated. Interment in the Schenck cemetery.

"A Good Beginning Makes a Bad Ending."

That saying seems to have been born of the superstition deep rooted in humanity. It is akin to that other saying "He laughs best who laughs last." Perhaps in these and similar sayings there is a survival of the old pagan belief that a display of happiness was likely to incur the envy of the gods and to draw down the visitation of the malice which is twin to envy.

It would be a ridiculous proposition to affirm that bad is the necessary outcome of good. But just as many a day which begins with a cloudless sky ends in storm, so many an event in life which

promises only happiness ends in disappointment and misery.

This is very true of marriage. The young wife goes heart and soul into home making and housekeeping. She loves to cook and prepare the dainties her husband enjoys. She is so robust and hearty that she can hardly find enough to do to exhaust her abundant energy. That's the way it begins. After a while she finds that it takes all her strength to care for her home. Then household cares begin to overtax her, and she drops down into a chair many a time and gives way to tears because of her weakness and misery. The sky so cloudless on the morning of marriage has soon become overcast.

THE CRITICAL TIME

in many a woman's life comes just at this period of discouragement and despair. She finds indications of disease of the delicate womanly organs. Her women friends perhaps tell her that the bearing down sensation, the pains in the back and loins indicate disease or displacement. She consults physicians, takes prescribed treatments, all to no avail. And yet this woman's case is curable on the evidence of women who have been cured.

"Four years ago my health began to fail," writes Mrs. Nellie M. Reycraft, of Glenwood, Washington Co., Oregon. "I had a heavy dragging and weight in the region of the uterus, pain in back and loins, could not lift anything heavy, rest at night very poor; stomach deranged. One physician said I was overworked, another said I had congestion and falling of uterus. He treated me nine months and said I would not be well until I had passed the change of life. I was only twenty-seven years old then. I became discouraged, and began using Dr. Pierce's Favorite Prescription. Took a teaspoonful three times a day; began feeling better right away. Am using my third bottle now, and feel I am in good health. Dr. Pierce's Favorite Prescription has restored me to health. If suffering women would give it a fair trial they would give it praise."

It can truthfully be said that there is hardly a form of womanly disease medically curable which will not yield to the faithful use of "Favorite Prescription." More than this, it is a matter of record that many forms of womanly disease pronounced incurable by local physicians have been perfectly and permanently cured by the use of Dr. Pierce's Favorite Prescription.

It is worth noting that these cures are lasting. Many medicines offered for women's use are mere palliatives. They numb the nerves and so dull the pain. But they do not re-establish the lost womanly health. "Favorite Prescription" is a purely vegetable preparation. It contains no alcohol, neither opium, cocaine or any other narcotic. It cannot disagree with the weakest constitution. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness.

IT IS WOMAN'S WAY

to sacrifice herself for her family. She goes without the new dress that husband or child may have some coveted pleasure. And for economy's sake she often bears the ills which are undermining her health. It is a false economy. The health of the wife and mother is the most important factor in the home life, and every suffering woman who has been cured by "Favorite Prescription" is a witness to the real economy of this means of cure.

"My health is the best now that it has been for four years," writes Mrs. Phebe Morris, of Ira, Cayuga Co., N. Y., Box 52. "I have taken but two bottles of your medicine, 'Favorite Prescription' and 'Golden Medical Discovery.' These medicines have done me more good than all that I have ever taken before. *I couldn't do my work only about half the time, and now I can work all the time for a family of four.* Before I took your medicines I was sick in bed nearly half the time. My advice to all who are troubled with female weakness is to take Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery'—the most wonderful medicines in the world."

Sick women are invited to consult Dr. Pierce by letter, *free*. All letters are held in sacred confidence and womanly confidences are guarded by strict professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

In a little more than thirty years Dr Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., assisted by his staff of nearly a score of physicians, has treated and cured hundreds of thousands of sick and suffering women.

If the dealer offers you a "just as good" medicine in place of "Favorite Prescription" it is because less meritorious medicines pay him a little more profit. His profit is your loss. Insist upon having "Favorite Prescription" the

medicine which makes weak women strong and sick women well.

THE REASON WHY.

Some medical works content themselves by classifying advice under the head of "Do" or "Don't." Dr. Pierce's Common Sense Medical Adviser gives the reason why, for all it enjoins. It is a plain guide to health written in plain English and dealing with the great problems of physiology and hygiene from the view point of common sense. This great work containing 1008 large pages is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 31 one-cent stamps for the work in cloth binding or only 21 stamps for the book in paper-covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

WEDDING AFTER 50 YEARS.

Romance of Two Centuries Finds Happy Outcome at Williamsport.

WILLIAMSPORT, Pa., October 19.—A romance that began over half a century culminated Thursday in the marriage of John Ludwick, a wealthy woolen mill man, of Ebensburg, Pa,, and Mrs. Elizabeth Herkimer, of this city.

As children they were playmates, and later lovers, but they became estranged, separated, and mated with others. Mrs. Herkimer became a widow a number of years ago. Two years ago Ludwig's wife died and last summer he began the correspondence that resulted in Thursday's wedding. Mr. Ludwig is sixty-nine and his bride sixty-five.

The Herkimer family were resident of Bellefonte for many years, after the death of the husband Adam Herkimer, who followed the weaving trade and was a much respected citizen, the family moved to Williamsport where they have since resided.

FARMERS' VIEWS OF GOOD ROADS AND HOW TO GET THEM.

From The Grange Trade Bulletin.

Address by the Legislative Committee of the Pennsylvania State Grange before the International Good Roads Congress, held at the Pan-American Exposition, Buffalo, N. Y., Sept. 16th, to 21st, 1901:

It is not often that practical farmers have a voice at such a great international gathering, on so important a subject, and for this reason the Pennsylvania State Grange representing the largest organized body of farmers in our State, through its legislative committee, feels highly honored to present the views of the farmers of Pennsylvania on the subject of good roads.

The time to question whether good roads are desirable has gone by. All are agreed on this point. On the proposition as to whether good roads—solid road beds the year through—are worth what they would cost, there is an honest difference of opinion.

Better roads are a matter of evolution and education on the one hand, and of getting all wealth to contribute to such improvement on the other. How to make good roads with the different kinds of material available is not so much the question, as how to get the means—the money to do it. The farmers of the State justly feel that they should not be forced to undergo any larger expenditure under existing tax laws. Scarcely one-fifth of the wealth of the State is in farm property and this practically pays all the taxes levied for road purposes.

Not only are farmers almost exclusively taxed for road maintenance, but they are compelled to furnish the land for roads for merely nominal damages, if any, and are obliged to pay taxes on land set apart for public use.

Conditions have changed; wealth has shifted from the farm to the city, in a large degree. Fifty years ago there was but little wealth in mining, manufacturing and transportation. Today the money invested in these various enterprise far exceeds the money invested in farm property and, moreover, brings larger returns. The highways of the State, like the public schools, belong to all the people and all should be willing to contribute to their maintenance. With the shifting of wealth in the State our tax laws have not been materially changed, except in so far as real estate is exempt from state taxation. Farmers believe, and very justly, that wealth other than the wealth in farms should be taxed to support a thing in which all are equally interested.

The maxim, "That you cannot get something for nothing," is as true of road building as it is of anything else. The farmers take this view of it, and our organization, at its last annual meeting, Dec, 1900, had the following to say on this question:

"The burden of road construction has been on the farmer, since the foundation of the Government; in fact, the farmer has been the pioneer of the construction of roads, while he has borne the burden of constructing and maintaining highways, other classes have been equally benefitted and have contributed little or nothing to their support. Even at this late day, when primitive methods of road construction and primitive government should be superceded by a higher civilization and more equitable laws in constructing and maintaining public highways, the farmer finds himself confronted with a proposition to force upon him a costly method of State control, with expensive county engineers and a scheme to fasten upon the farmers, county and township bonds that would be a burden upon the agricultural class for the next century. If public roads were only for the benefit of the agriculture class, there might be an excuse for this, but as they are used by all classes and industries the first requisite in improved road construction should be a method of raising the needed revenues that would tax all classes of corporate and personal property as well as real estate. The idea of constructing public roads and maintaining them by taxation on real estate alone is fallacious. We therefore insist that if any road legislation is to be enacted, all personal and corporate property shall be taxed alike with real estate for this support. We do not wish to be understood as opposing good roads, but we are emphatically opposed to any system of road construction that will increase the burdens of the already overtaxed farmer."

At its annual meeting, December, 1899, it reiterated its former position and we quote from our annual proceedings of 1898, as follows:

"Your committee wish to reiterate and emphasize the position which the State Grange has constantly held as to the different road law schemes that have developed in recent years.

"We want good roads—will welcome better roads than we have—but insist that as better roads are mainly a question of more dollars, that the law which may provide for them shall also provide for equal taxation for that purpose, of all kinds of property.

"It is a sine qua non with us that any road law shall either provide for the equal taxation of all forms of property (except that exempted by the Constitution) for road purposes; or that it contain as a prequisite, an appropriation by the State under conditions essentially similar to those governing the public school appropriation."

The latter method does not seem very feasible in our State for the reason that the expenditures of our State government will equal the receipts for some years to come; then again as the appropriation would have to be made at every succeeding session of the legislature, which is biennial, there would be much uncertainty.

In fact a new road law was passed in Pennsylvania in 1897 and a proviso was inserted by the farmers of the State, that said law should not go into effect until a million dollars should be appropriated annually, "to be distributed, under the directions of the Department of Agriculture, among the several towhships of the State in proportion to the number of miles of public roads in each township;" though more than four years have elapsed, no appropriation has been made and the act is not in force.

Therefore we advocate that while at present real estate is taxed alone for road purposes, a special State tax be assessed and collected by the State on all corporate and personal property for a road fund for the improvement of the public roads of the State. It would be the best investment ever made.

Having this end in view, the State Grange instructed its committee to prepare a bill on these lines and present the same to the legislature of 1901. The bill was prepared but not presented, as there had been a bill presented by the Department of Agriculture that was so amended as to create a permanent road fund for the improvement of the public roads in conformity with the ideas of the State Grange. This amended bill would probably have raised nearly two millions of dollars annually. With the aid of the Grange it passed the lower branch of the legislature, but failed in the Senate on account of the opposition by the great corporate interests of the State, and that counts for a great deal, in Pennsylvania, from officials down.

This defeated measure was endorsed by the advocates of good roads as being the only practical and best solution of the problem, in our State, that had at any time been presented.

At present, in Pennsylvania, township roads are managed by road supervisors, and the tax is worked out, though there are many special acts differing from this in some particulars, but road tax is only assessed on real estate.

In 1895 an act was passed known as the county road act, which empowered the county commissioners to macadamize or otherwise improve the main or principal roads in the townships of the county, and gives them power to assess annually a special road tax of ½ mill on all real estate in the county for road purposes. This law has been further amended to allow the county commissioners to borrow money not exceeding one per centum on the valuation of the real estate of the county. This law, while applicable to all counties, is only in operation in two of them. In Allegheny county it is costing over twelve thousand (12,000) dollars for each mile of road made under this act. The act leaves the method, and so on, entirely in the hands of the county authorities, and cheaper roads can be built, if desired.

Under this law it would be wise to allow counties to tax all kinds of property and franchises for road purposes. If this could be done the law would come in general use in nearly all the counties in the State.

Many bills have been presented to the law making bodies of our State, and, at the last session, a commission prepared a bill; but as it failed to provide any means of raising revenue outside of taxing real estate, it received very little consideration and never got out of the committee to which it was referred.

Pennsylvania has nearly 1600 townships and 100,000 miles of township roads. In many sections roads are good; in others the material is close at hand to have better roads; in other parts it is expensive to build good roads; but, upon the whole, the township roads of Pennsylvania are better than they were twenty years ago.

The local and county taxes on real estate increased from 30 millions, in 1892, to 45 millions in 1899. Real estate is paying an average of 16 mills, corporate and personal property is paying less than an average rate of three mills. This inequality of taxation leads the farmers to oppose any laws creating additional burdens until all kinds of property are placed on the same basis for the purposes of taxation.

State control of the roads is opposed. It would create a horde of officials, and in many instances be turned into the worst kind of a political machine.

The control of the public roads as well as other matters should be as near the people as possible. It is essential to good citizenship.

In conclusion I will reiterate that the first requisite, in Pennsylvania, toward good roads is a proper revenue measure, taxing all personal and corporate property at the same rate that real estate is taxed for road purposes; and from what I learned as a delegate to the National Tax Conference held in this city last May, and from various reports on this subject of taxation and good roads, I am inclined to think what is true of Pennsylvania is true of nearly all the States in the union.

—John W. Vogel's Big Minstrels gave a spendid performance in the Opera House Friday evening and won unstinted praise and high compliments from a fair sized audience. The show deserved a packed house. A better minstrel program has not been on the boards in Bellefonte in a long while. The music was of the first order in both vocal and instrumental numbers. We express the sentiment of the entire audience present in saying that Vogel's minstrels are first-class and up-to-date and their performance a pleasure from start to finish.

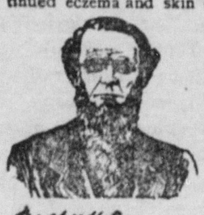
Eczema for Forty Years.

The Unqualified Statement of a Well Known Attorney, St. Ignace, Mich.

Some of the cures made by Dr. A. W. Chase's Ointment of stubborn and long continued eczema and skin diseases are causing much comment. People are beginning to realize that this Ointment is a wonder worker with all kinds of skin trouble. Attorney Jas. J. Brown, St Ignace, Michigan writes as follows:



Dr. A. W. Chase Med. Co., Buffalo, N. Y.—Gents:—I cannot refrain from expressing my acknowledgment for the relief I have felt from Dr. Chase's Ointment. For 40 years I was afflicted with a skin disease which was located in one spot—on my leg. I have spent at a rough estimate five hundred dollars trying to effect a cure, and not until I applied this ointment did I get relief. You are strangers to me and this letter is prompted directly because I want to say and I feel as though I ought to say it. That Chase's Ointment has effected a complete cure of my affliction. Three boxes did the work on my leg. I was also suffering from itching piles and applied the ointment which gave the best of satisfaction by affording me rest at night and rapidly causing the disease to disappear. I have received such relief and comfort from the ointment that I cannot withhold expressing my gratitude. I was so long afflicted with the tortures of eczema I feel now that I am cured, a word of recommendation is due from me.

Yours truly,

PRESBYTERIAN SYNOD!

Rev. Maitland Alexander Was Appointed Vice Moderator.

ANNUAL REPORTS WERE SUBMITTED

The Synod is in a Flourishing Condition as to Numbers and Benevolence—Larger Numbers Have Attended Church During Past Year Than Before.

A 5,000 GAIN IN MEMBERSHIP

Pittsburg, October 19.—At the second day's session of the Presbyterian Synod of Pennsylvania, being held in the East Liberty Presbyterian church, Rev. Maitland Alexander, pastor of the First Presbyterian church, of Wood street, was appointed Vice Moderator by Rev. Thomas R. Beeber, the newly elected Moderator. There was much surmising Thursday and early yesterday morning as to the probability of Justice William P. Potter being named as Vice Moderator and much interest was attached to the appointment.

After devotional exercises the regular business before the session was taken up. Rev. Robert Hunter, Stated Clerk, read his annual report of the work accomplished during the past year.

Rev. J. J. McCarrell, chairman of the committee on Bills and Overtures, made a partial report recommending that the complaints of the church of the Covenant, of Williamsport, versus the Northumberland Presbytery, and the Bristol Presbyterian church versus the Philadelphia Presbytery be referred to the Judiciary committee. This was done.

These complaints bring up a fight in these churches of long standing. The one against the Philadelphia Presbytery is as to the action of the Presbytery in ordering the Bristol church to again place on its rolls the names of three women who were expelled from the church. These women were at the head of the Missionary societies of the church and Sunday school teachers. They were alleged to have been disturbers in the congregation, driving away two pastors.

Rev. W. A. Jones, pastor of the Knoxville Presbyterian church, read the Narrative of the State of Religion. It showed that the Synod is in a flourishing condition as to numbers and benevolence.

According to the report larger numbers have attended the church during the past year than ever before. Among the Sabbath schools an increase of 2,000 in attendance was noted. A 5,000 gain in membership among the churches has been made. The contributions of Synod to benevolence were as follows:

Home missions, $250,349, Foreign missions, $207,364; Education, $23,340; Sustentation, $26,000; Church erection; $22,292; Relief fund, $28,830; Freedmen, $54,000; Sabbath school work, $33,000; Aid to Colleges, $15,872; General Assembly, $17,357; congregational, $2,476,288; miscellaneous, $219,179. The total contribution to the church by the Synod during the year was $3,374,720.

After the reading of the narrative the necrological report was read, showing that 21 members of the Synod have passed away during the year.

REPUBLICAN COUNTY TICKET.

FOR PROTHONOTARY,
EDWARD C. McKINLEY,
of Bogg's Twp.

EDITORIAL.

"Judge Love is the recognized leader of the Quay forces in Centre county."—John Hamilton to the Republican county convention, July 30, 1901.

WITH the Bulgarian brigands in Southeastern Europe and Pat Crowe in the United States it may be well said that personal liberty is at a discount.

EVERY Confederate veteran has been asked to give $1.00 toward a Jeff Davis monument, but asking is not getting, as other monument projectors have discovered. As for example the Soldiers' monument for Centre county's brave sons who fought for the Union.

UNDER American administration the municipal expenses of the city of Manila amount to $1,500,000 per annum as against $316,000 under the Spanish regime. From the view point of results, however, the increase indicates a balance in favor of the American method.

IF President Roosevelt should require any pointers in the preparation of his message to Congress he could procure a versatile mind and a prolific pen upon application to the statesman-journalist Hon. John Pan Hamilton, Secretary of the Pennsylvania Department of Agriculture and State Agent for the Oleo trust. The Honorable Johnny Pan in a recent publication, volume 1, of the annual report of the Department of Agriculture demonstrated beyond all possible question that he is a veritable stone house of universal knowledge and a past master in the art of romancing with the dry rot of statistical data. Johnny Pan is a bird even though he received no mention in State's $5,000 edition of the "Birds of Pennsylvania."

SELF RESPECT SHOULD DECIDE.

There is a red hot judicial contest raging in the Union-Snyder district. Judge Harold M. McClure is a candidate for re-election on the Republican ticket and is opposed by Andrew A. Leiser, Esq., one of Union county's leading attorneys, the candidate of the Democratic and Union Party. We are not personally familiar with the issues involved in the contest except from the view point of an outsider who is meagrely informed. From what we have read, however, in the exchanges coming to us from the Union-Snyder district, we are disposed to believe that the best interests of the district can be best served by the defeat of Judge McClure. The fact that his candidacy is supported by Sen. R. K. Focht, is sufficient proof that his re-election is desired not for the advantage and welfare of the district but for the service of the political machine he has presumably aided and is doubtless willing to further assist. With a knowledge of Ben Focht's past political and public record and his present attitude in relation to political plunderers and boodlers, we would place at a low estimate the moral tone of any community that would support at the polls the candidate of his choice or endorsement. Are the citizens of the Union-Snyder district ready to declare their independence or will they continue to rest under the reproach of Fochtism?

THE CANDIDATE OF THE PARTY, NOT A FACTION.

IN Edward C. McKinley, of Boggs township, the Republicans of Centre county have a candidate for Prothonotary who is worthy of the support of every individual member of the party. He is conducting a dignified and manly campaign and he asks the united suffrage of his party. Mr. McKinley is an honest straight forward and capable man, well qualified for the duties attached to the office he seeks. There is no occasion to involve the Republican county ticket in the contest on State issues. Mr. McKinley is not the candidate of a faction. His nomination was not the result of a factional struggle. He made a vigorous canvass for the nomination against his competitors and he won out in the convention, not as the candidate of a faction, as we stated above, but as the choice of the Republican majority. Vote for Edward C. McKinley for Prothonotary.

"GO AWAY BACK, AND SIT DOWN"

Editor Harter, of the Keystone Gazette, gave the Honorable John Hamilton a severe jolt in last week's issue of his paper. Editor Harter has the oleo machine manager of Centre county up a tree so to speak and none knows it better than the man up the tree. Just the same we, and others, would like to have Hamilton answer Editor Harter's questions. Come, John, you cannot cleanse your record or show a clean bill of character by attacking men *in every respect* your superiors. It does not do for you to cry "Stop, thief!" Only those without sin are licensed to throw stones. If you can deny the charges the Gazette editor implies in his interrogations to you, you may be able to reinstate yourself in the public confidence. If you cannot, then common decency should prompt you to seek seclusion and spare your neighbors the necessity of condemning your hypocrisy.

A TEMPEST IN A TEAPOT.

President Roosevelt recently invited Booker T. Washington, the eminent colored educator to dine with him at the White House and the occurrence has been made the occasion of a great deal of acrimonious criticism in the South. President Roosevelt is a man of convictions which he purposes to live up to. This is the general estimate of the man and his character and the Washington incident will serve to strengthen the impression. By his reception of Dr. Washington and the honor he paid him the President evidently meant to serve notice that he intends to be, not only the President of all sections of this country, but also of all its races, and that a man's actions, and not the color of his skin, is to decide his standing at the White House. Naturally the incident has stirred up a certain class of Southerners, those who still hold in their hearts all the prejudices of the ante-bellum days and the hatred and bitterness, engendered by the war. This class is fast diminishing in Dixie land and the indignation of the remnant, provoked by the entertainment of Dr. Washington at the White House, will soon subside for lack of supporting sentiment.

WITHOUT a dissenting voice, the Supreme Court of Pennsylvania Monday declared the Philadelphia Tax Board "ripper" bills, passed by the last Legislature at the instance of the machine gang, to be unconstitutional and void. This action of the Supreme Court will be a severe blow to the Quay machine. The gang of boodlers and political corruptionists had hoped by the enactment of these ripper bills to reap a financial benefit and an increase of political power especially in Philadelphia. The scheme was checkmated by the "court of last resort" and sorrow, anger and bitter disappointment doubtless floods the hearts of the "Jolly Rogers" pirate crew.

UNLESS our inventors get a move on the Frenchmen will "fly" first.

THERE is no ground for the continually repeated reports that there is a lack of harmony between the President and Senator Hanna. Both men are built on altogether too large a scale to indulge in petty bickerings and jealousies and, as a matter of fact, Mr. Roosevelt has invited Senator Hanna's advice on several of the more important questions that have come up and has informed the Senator that he will always be grateful to him for any advice he may choose to offer. Mr. Roosevelt and Mr. Hanna may differ upon many minor details but in all matters of importance they will be found acting in unity for the good of the country.

THE factions of the Republican party in Centre county have no right to allow state issues to interfere with their loyalty to the county ticket. The Republican candidate for Prothonotary was regularly nominated by a Republican county convention and he deserves and should receive a united party vote.

IT is natural to wonder, in the light of recent events, if Governor Stone received advanced tips of the vote of the Supreme Court on the Philadelphia Tax Board "ripper" bills.

THE enormous exportation of American matches warrants the statement that America lights the world.

THE UNION PARTY: ITS PURPOSE AND AIM.

We have been repeatedly questioned concerning the purpose of the organization of the Union Party, its object and aim. The answers to these queries is so lucidly and explicitly set forth in the platform of the party convention held in the Philadelphia Academy of Music, September 24th, that we deem it expedient to use the platform in reply to the requests we have received for information regarding the establishment of the party and the cause it upholds and will fight for. It comprises the union of good citizens and honest men, without regard for political ties who will vote for the restoration of the standard of pure government. The question of National politics is not involved in its campaign, and, as is distinctly stated in the party platform, the party does not aim to sever citizens from their affiliations with the great parties that are divided upon questions of National politics. The Union Party is organized for the one purpose of redeeming the Commonwealth of Pennsylvania from the blight of Quayism and machine politics. Read the platform carefully and you will clearly understand the purpose and aim of the Union Party:

Platform of the Union Party Adopted at the Convention Held in the Academy of Music at Philadelphia, Sept. 24, 1901.

The Union party of the State of Pennsylvania, meeting for the first time while the land is yet shadowed by a national calamity, hereby voices its horror at the deed whereby our late President, William McKinley, was stricken down, and records its appreciation of his exalted public services, his lofty patriotism, his civic virtue, and his purity of character. His example should be cherished as a model of good citizenship.

This Convention has been called to meet an emergency in State and municipal affairs without precedent in the history of Pennsylvania. It appeals to the support of all citizens for the following reasons:

The political party dominant in this State has had complete control of the machinery of the State government in all its departments for many years. Its power and prestige have been assumed by an oligarchy who command and use its organization at their will. They have trampled upon the pledges of reform solemnly made to the people in the Republican State platform of 1895, and unanimously re-affirmed by the Republican State Convention of 1896. Since these declarations were made and re-iterated, three Legislatures, controlled by these party managers, have met. Not only have they failed to keep a single promise of reform thus proclaimed, but they have recklessly violated every pledge, and have left a record of steadily increasing and insolent disregards of the rights of the people. The proceedings of the last Legislature culminated in a most shameless prostitution of public power to private greed. Members of the majority and the minority organization have combined to make laws that have brought reproach upon the good name of the Commonwealth. A minority composed of earnest and patriotic men of both parties have striven desperately, but in vain, to stem the tide of corruption in city and State. Only the union of all good citizens, without regard to party ties, can re-establish the standard of pure government.

The Union Party has been called into being for the single purpose of overthrowing the evil combination now in control in the State, and electing men without regard to party affiliations who will administer with simple honesty and ability the offices to which they are elected. *It does not aim to sever citizens from their affiliations with the great parties that are divided upon questions of National politics.* Its struggle is for an honest ballot, and for the restoration of integrity and capacity in State and municipal affairs.

We heartily commend the emphatic expressions of the last Democratic State Convention in favor of a closer union between that organization and all others of different political convictions who are ready to make patriotic and earnest efforts to regenerate the government of both city and State; and we welcome the aid of all good citizens and organizations in the cause we have at heart.

We especially condemn the revolutionary acts of the last Legislature, summarily deposing the municipal officers of cities of the second class, whereby the people of those cities were disfranchised for a period of nearly two years and denied any voice in the control of their own local affairs.

We denounce the secret plans and the legislation that brought them to fruition, whereby franchises of incalculable value have been voted away by the Legislature and by Councils, and also the Executive officials who have used the power of their great offices to consummate the wrong thus inflicted upon the whole body of the people.

We denounce the legislation whereby it has been sought to oust from office the members of the Board of Revision of Taxes in cities of the first class, the obvious purpose being to furnish a new weapon to the masters of the political organization controlling our greatest city. No interest demanded the change, and the same malign influences carried it through the Legislature that in other ways have worked so much evil to the community.

We favor the adoption of amendments to the Constitution permitting the enactment of an election law that shall require personal registration and personal payment of taxes by every voter.

Finally, we announce as the fundamental principals of our organization—

FIRST.—The selection of fit men for office.

SECOND.—A free ballot and a fair count. No police interference at the polls. Prompt punishment of election officials or others whose acts may violate the result of elections.

THIRD.—Restriction of crime by faithful and fearless administration of law. Public officials must be above the suspicion of extending protection to vice in any form.

FOURTH.—A pure and non-partisan judiciary.

FIFTH.—Equitable and reasonable assessment for purposes of taxation. No free gifts of public franchises to private ownership.

SIXTH.—Wise and economical expenditure of public funds. Absolute impartiality in the award of public contracts.

SEVENTH.—The right of municipalities to self-government, so far as is consistent with the welfare of the State.

In an earnest effort to attain these ends, we invite the active co-operation of every citizen.

Resolved, That in presenting the name of Harman Yerkes as our candidate for the Supreme Court, and of Elisha A. Coray, Jr., for State Treasurer, we challenge the criticism of all parties as to their unblemished integrity, ripe experience and eminent fitness for the duties which we confidently expect the people to call them. We cordially and earnestly commend them to the hearty support of every good citizen of Pennsylvania.

SUFFICIENT UNTO THE DAY.

The enterprising correspondents who are re-organizing President Roosevelt's cabinet for him might just as well desist until changes are a little more imminent. At present there is not the least chance of any of the members leaving their posts, all gossip to the contrary being wasted breath. If any secretary retires it will be Mr. Hay, and he will not leave for several months at the earliest, and it is entirely probable that he will remain for a year or longer. Barring the unexpected, every member expects to remain at his post indefinitely. President Roosevelt does not worry himself much over this idle talk, though he managed to make a joke out the other day. "Oh, yes," he said, "I don't mind telling you that Senator Teller is to become Secretary of the Treasury, chiefly on account of his financial ideas; George Fred Williams, of Massachusetts, will be Secretary of the Navy; Mr. Lentz, of Ohio, will be made Secretary of War in order to carry out my Philippine wishes in the proper way. Possibly Joe Bailey, of Texas, may be Attorney-General—he is very familiar with the constitution. This will do as a starter; other changes can be made later. Suggestions from newspapers will be warmly welcomed."

As yet the Philadelphia Inquirer has made no attempt to charge John Wannamaker as having inspired the infamous Stone-Potter telephone *conversazione*. It is possible that he was in no manner connected with the crime?

Twelve billion letters, it is said, are annually distributed through the post-offices of the world. Two-thirds of the total are addressed in English. Twelve hundred thousand are in German and one million in French.

THE entertainment of royalty requires a long purse, the Czar's brief visit to France a few weeks ago cost the French government in the neighborhood of six hundred thousand dollars.

AT the Yale bi-centennial celebration was exhibited the diploma awarded in 1703 to Nathaniel Chauncey, a graduate at the first Yale commencement.

Wedding Bells Peal Forth.

On Tuesday at high noon a very happy event occurred at the home of Mr. and Mrs. John Wilkinson, of Potters Mills. It was the giving in marriage of their accomplished daughter Miss Leota M. Wilkinson to Mr. Harry Spangler, of Chicago, Ill. The home was beautifully decorated for the occasion, many guests were present to witness the event. Promptly at the appointed hour Rev. Theodore Hoven, of Potters Mills spoke the words that made these two young people man and wife. Miss Katharine Wilkinson was the bridesmaid and Mr. Frank Carson was best man. Miss Gertrude Spangler a sister of the groom played the wedding march. The bride was the recipient of many beautiful presents, among them being a check for $100. Mr. and Mrs. Spangler will leave for Chicago on Thursday morning where Mr. Spangler holds a responsible position as chief clerk for the American Biscuit company. This paper joins with their hosts of friends in wishing them a happy voyage through life.

Gutta Percha Getting Scarce.

Counsel Atwell, of Roubaix, writes that the scientists in France are now engaged upon the problem of acclimatizing the Isonandra gutta, the tree which produces gutta percha, indispensable to the construction of submarine cables. It seems that no other product known at present replaces the gutta percha found in the forests of the Malay peninsula and in certain districts in Malacca. Inferior qualities have not the requisite durability for submarine use. The plantations in the above mentioned districts have been so ruinously exploited by the natives, who uproot full grown trees and cut young plants, before they come to maturity, that it is feared there will be a shortage in the supply of this quality of gutta percha in the course of 15 years, unless means are taken to protect the forests or to propagate the plants elsewhere.

—Dr. J. T. Rothrock, Commissioner of Forestry, was at Beech Creek Saturday, where he awarded the contract for a new road to John Miller at his bid of 26 cents a rod. The new road will run from Renovo throught the forestry reservation lands, and will connect with the Jones Run road near Beech Creek. There were several bids opened.

—A lie never dies from lack of circulation.

We have in our town several boys, who spend their evening on the streets, annoying everybody in town by their hideous noise and rude conduct. Smoking, profanity and riding a bicycle seems to be their highest ambition. Some of those parents who always find fault with others had better sweep before their own door.

Opening Reception of the Young Men's Christian Association.

On Friday Nov. 1, the Young Men's Christian Association rooms will be formally opened. The building has been thoroughly renovated inside and out, and tastefully painted and papered, so that one could scarcely imagine a more cozy, homelike place. The new bath system is the finest ever seen in Bellefonte. The lot in the rear of the building has been nicely leveled and affords an excellent place for tennis, basket-ball, band-ball, etc.

Friday, Nov. 1st, from 9 a. m. to 10 p. m., a reception will be tendered to all friends of the Association. A committee of members will be constantly in attendance both day and evening to show visitors through the building and explain plans for future work. From 2:30 until 10 p. m., music will be provided and dainty refreshments will be served. Everybody is invited to come and inspect the building and learn how the Association hopes to work.

Sunday, November 3rd, in the afternoon a meeting for men only will be held, and in the evening, the churches will unite in mass meeting in the interests of the Association. Mr. S. M. Bard, of Harrisburg, State Secretary of the Y. M. C. A., is expected to be present and speak at both of the above meetings, the time and place of which will be announced later. No collections will be taken or subscriptions asked for in either meeting.

Baby's Business.

A healthy baby is comfortable; and that is enough for a baby. His business in life is to grow.

Aside from acute diseases, his food is the cause of most of his troubles. But Scott's emulsion of cod-liver oil delivers him from it.

He isn't sick; only a little hitch, somewhere, in his machine for turning food into growth.

It is a great thing to do, for a baby, to help him over a hitch with mere food—the emulsion is food that has the tact to get there.

The tact to get there is medicine.

Unveiling of First Monument at Valley Forge

Erected by Daughters of the American Revolution, and Dedicated to the Dead of Washington's Army Who Were Buried Among the Historic Hills.

STRIKERS WRECK STREET CARS.

SCRANTON, Oct. 21.—There were several riots here Sunday in connection with the street car strike. On Luzerne street a crowd of young men got after a car and broke every window with stones. On the South Side there were several cars stoned. In all ten cars were stoned during the day. The car crews, acting under orders, made no demonstration, and more serious trouble was averted.

It is hinted to-night that this week the business interests will make a strong effort to end the strike.

VALLEY FORGE MONUMENT.

Valley Forge, Oct. 21.—A shaft in memory of men of Washington's army who are buried here, was unveiled yesterday, under the auspices of the Daughters of the American Revolution, by whom it was erected. The memorial stands on a plot of ground which was presented by Major I. Heston Todd. Embraced in the plot is the grave of Lieutenant John Waterman, Commissary to the Guard, who died on April 13, 123 years ago, and whose grave, marked by a rude stone, is the only identified grave of the many thousand soldiers known to have been buried there.

The unveiling exercises yesterday were opened with prayer by Rev. Floyd W. Tomkins. An address of welcome was made by Mrs. Nathaniel Seaver Keay, of Clifton Heights, Chairman of the Committee on arrangements. Mrs. Keay is also First Vice President General and State Regent of Pennsylvania, Daughters of the American Revolution.

The monument is fifty feet high, and is of plain granite, adorned with bronze panels, One bears the seal of the society, and the other represents a scene of winter camp life. Above these the original Colonial flag, with thirteen stars, has been carved upon the shaft. The monument is close to the Valley Forge road, about a mile and a half below Washington's headquarters, on the top of the long hill above Port Kennedy.

DYNAMITE UNDER HOUSE.

WILKESBARRE, Oct. 21.—While the family of Reese Morgan, superintendent of the Murray mine, were at church Sunday evening their home on Grant street, one of the principal residence sections of the city, was wrecked by dynamite, believed to have been maliciously placed under the cellar wall and exploded. Had there been any one in the building at the time the deed must necessarily have resulted in death or serious injury of the occupants, as the house, a two story frame structure, was completely demolished.

CHILD SMOTHERED IN MOTHER'S ARMS.

MEADVILLE, Oct. 21.—When Mr. and Mrs. Jesse Mook, who live 12 miles from this place, reached town Sunday morning they found that their baby, which had been closely wrapped up, was dead. The child's face had been covered with a shawl and the little one smothered before the parents were aware,

PENNA. RAILROAD STATION ROBBED.

DUBOIS, Pa., October 21.—The ticket office at the Pennsylvania Railroad station at Reynoldsville was broken open Saturday afternoon and the safe robbed of about $20. During the night the ticket and express office at the Buffalo, Rochester and Pittsburg depot at the same place were entered, the drawers broken, numerous express packages torn open and everything turned upside down by the thieves, but nothing was secured. Burglars are still operating around DuBois. Last night the homes of several residents of town were entered and money and jewelry carried away.

THIEF'S ACT POSTPONES WEDDING.

SHENANDOAH, October 21.—When Stiney Nowalsky returned from a short walk Snuday morning he found his bureau drawer broken and $200 and a lady's gold watch gone. He suspects his room mate, Powell Yanzalavich, and swore out a warrant for his arrest, but Yanzalavich cannot be found. Nowalsk expected to get married next week and the money he saved for that purpose. The watch was purchased on Friday, and was to be presented to his bride-to-be Sunday evening. The robbery caused the postponement of the wedding.

Secured a Chef.

Mr. Clyde Blackford, Bellefonte's popular and enterprising restauranteur, was in Williamsport for several hours Friday where he secured the services of an expert and reliable chef, in the person of Mr. Henry Williams, who until recently was employed in one of Pittsburg's most fashionable restaurants. Bellefonte people will hereafter find finer and more choice dishes than ever at Blackfords.

The Bellefonte Council of the Royal Arcanum Banquets.

The Bellefonte council of the Royal Arcanum gave a delightful banquet at their council rooms in the Undine Fire Engine house, Thursday evening, in honor of W. H. Druckemiller, of Sunbury and Webster C. Weiss, of South Bethlehem, Grand Regent and Grand Secretary of the State Council, R. A.

There were about one hundred members of the local council, and invited guests present, Capt. H. S. Taylor acted as director of the ceremonies incident to the occasion. Shortly after eight o'clock Captain Taylor took the chair and called upon Dr. Shriner to open the exercises of the evening with prayer after which Grand Regent Druckemiller was introduced and delighted all present with a splendid address. He was followed by Grand Secretary Weiss whose remarks were chiefly confined to a resume of the progress and development of the Royal Arcanum since its organization to the present time. Both gentlemen are pleasing talkers and their addresses were of the most interesting and entertaining character and were received by profound interest and attention.

At the conclusion of the Grand Secretary's remarks the company adjourned to the banquet room where Caterer Ceader had prepared a delightful repast. The proof of its excellence was evidenced by the heartiness in which every one participated in the feast spread out before them. When cigars and coffee were reached Captain Taylor who filled in his usual acceptable manner, the difficult task of toastmaster, produced "a little list" and said that after dinner speakers were in order. Among those who entertained the banqueters with short and appropriate remarks were Hammond Sechler, Grand Regent Druckemiller, Grand Secretary Weiss, Rev. Dr. Shriner, W. E. Gray, Esq., John C. Miller, John Meese, Regent John C. Bair, of the Bellefonte council, R. A. Claude Cook, Oscar Miles, of Milesburg, F. E. Naginey and Francis Speer, of the Keystone Gazette.

The evening of social intercourse and feasting was a distinct success. The members of the Royal Arcanum of Bellefonte are royal hosts and they have the art of entertainment down to a fine point. The committee in charge of the banquet was Ed. F. Garman, Chairman, Herman Holtz, Jacob Lyon assisted by A. Baum, Frank Kern, C. K. Hicklen, Ed H. Hoy and Grant Hoover, to whom before adjournment; a hearty and sincere vote of thanks was given.

Mr. A. B. Steel of North Spring St. says: "I have never had a bad back since I used Doan's Kidney Pills in 1896 I procured them at that time from F. Potts Green's drug store and used them, but I have never had any occasion to use them since. I was so bad with lumbago or soreness across my kidneys that I had to play off work, I was hurt at a barn raising some years ago by a heavy timber swinging and striking me in the back. After that whenever I took cold it always affected my kidneys. This was the case for years but Doan's Kidney Pills finished all that suffering. I can speak as highly of this valuable preparation now as I did then."

WHEN GARFIELD LAY DYING

A Pathetic Incident of His Removal to Long Branch.

A pathetic incident is related apropos of the day of fasting and prayer which was appointed by all the governors of the United States at the time President Garfield was removed from Washington to Long Branch in the hope that the change might help him to recover from the bullet wounds inflicted by Guiteau.

"Crete," said the president to his brave little wife about 11 on that Thursday morning as the ringing strokes from the belfry of the Episcopal church almost across from the cottage reached his ears, "what are they ringing that bell for?"

"That?" said Mrs. Garfield, who had been waiting for the surprise. "That's the church where we were when you first came down. They're all going to pray for you to get well," and, falling on her knees, she said, "And I'm going to pray, too, James, that it may be soon, for I know already that the other prayer has been heard."

From where he lay Garfield could see the carriages draw up and group after group go in. He could even hear the subdued refrain of "Jesus, Lover of My Soul," as it was borne by on its heavenward way. Thrilled with emotion, a tear trickled down the president's face. Then he closed his eyes and turned his face as a sweet woman's voice arose singing from one of Sir Michael Costa's oratorios. "Turn thou unto me and have mercy upon me," sang the voice, "for I am desolate—I am desolate and afflicted; the troubles of my heart are enlarged. Oh, bring thou me out of my distresses—out of my distresses—my God."

The people in the church sat almost spellbound under the voice, for the singer was affected deeply and made it seem to all, what it must have been to her, a prayer in music.

FLOWER AND TREE.

A few pieces of charcoal dropped into the water assist in preserving cut flowers.

The hole for a tree should be made wide and deep and the bottom be filled with rich earth.

The seeds of nearly all forest trees do best if not allowed to become dry before planting.

For the finest flowers sow pansy seed in the fall. Protect the young plants through the winter, and you will be well rewarded.

The sweet william is a biennial, but will sow their own seeds and come up year after year, as do hollyhocks, thus making them practically perennials.

One of the handsome perennials that flower in July is the digitalis, which has long spikes of blue thimble shaped flowers. It makes a striking clump.

The principal advantage in fall sowing of flower seeds is that the plants grow stronger, root deeper and flower earlier and longer than those from spring sown seed.

The grape is one of the most desirable fruits to plant. It is inexpensive to get a start with, it bears early, it is productive and easily managed, and the fruit is delicious and wholesome.

Couldn't Stand Satire.

A burglar, while attempting to rob a bloated bondholder of Maryville, by mistake got into the humble residence of an editor next door. After unsuccessfully fumbling about for suitable assets for some time he was disgusted to observe the tenant of the house sitting up in bed and laughing at him.

"Ain't you old Skindersen, the capitalist?" inquired the housebreaker.

"Nary time," chuckled the journalist. "I'm the editor of The Screaming Eagle."

"Jerusalem!" said the burglar, looking at his stemwinder. "And here I've been wasting four precious hours on this branch almshouse. I say, old quill driver, you never poke fun at your subscribers, do you?"

"Not the cash ones."

"Exactly," said the burglar, taking out his wallet. "Here's six months' subscription to call this thing square. If there's one thing on earth I can't stand, it's satire."—Tit-Bits.

Personal Elements of Success.

"Personality," as it is called, is a thing apart, a light that cannot be hidden. It is difficult to describe, being in its nature variable. Often it is composed of one part talent and two parts character, and he who has it may in spite of other deficiencies command success.

Large successes are attainable by the union of aptitude and concentration of purpose, coincident with opportunity; the meeting of the man and the occasion, the suiting of the word to the action, the action to the word; self confidence, unflagging courage, absolute probity.—Henry Watterson in Success.

Inherited Prowess.

"To what," sked the young woman with the notebook, "do you attribute your remarkable power in training these animals and keeping them in subjection?"

"Well," replied Mlle. Castella, the lady wonder of the arena, "I think I inherited it from my mother. She was a strong minded woman. My father was a regular bear, and she had to subdue him about once a day as long as she lived."—Chicago Tribune.

—The thirty-ninth anniversary of the signing of the emancipation proclamation by President Lincoln was celebrated Sunday by the colored people of Johnstown. There was a very creditable parade in the afternoon and a mass meeting at which Mayor Woodruff and Bishop Walters were the speakers.

Patient—Oh, but, doctor, look at my tongue.

Doctor—That needs rest, too, madam.—St. Louis Republic.

A Man's Age.

The great majority of men who have passed forty are old or young according to their belief. Those who think themselves old are old; those who think themselves young are young.—Chicago Inter Ocean.

They Hold More.

"Do you ever wish you were a girl?" asked the visitor who was waiting in the reception room.

"Only at Christmas time," answered the boy, who was lingering in the doorway.

"Why do you wish it then?"

"Because of the stockings they wear," was the prompt reply.—Chicago Post.

Citizen Attention.

Notice is hereby given that the burning of leaves and paper on the streets of Bellefonte is prohibited by ordinance. It is the purpose of the police authorities of this town to enforce this ordinance strictly during the fall and any disobedience of said ordinance will be followed by an arrest. EDMUND BLANCHARD,

THE RUG DESIGNERS

PATTERNS DESCEND FROM PARENT TO CHILD IN THE ORIENT.

Reasons Why Animal Figures Are Rarely Seen on Persian Rugs. Prayer Rugs of the Mohammedans and Their Use—The Rugs of Sivas.

The designs of eastern rugs are often the spontaneous outcome of the fancy of the weaver. Sometimes they are handed down from one generation to another. In some cases young girls are taught the design by an adult, who marks it in the sand. At other times a drawing of the rug is made on paper, the instructor showing her pupils the arrangement of every thread and the color to be used. When all this has been done, the pupils must make the rug without looking at the drawing.

Persian rugs excel those of other countries in artistic design as well as in harmonious coloring. The Persians seem to have a natural intuition in the use and blending of different shades, and in the designs that contain these certain colors they achieve the happiest results. It is really wonderful what exquisite fabrics these people, born and reared in ignorance and poverty, produce.

The designs in Persian rugs are generally floral, and in some districts, especially Fars, the women weavers invent the designs, varying them every two or three years. The Mohammedan religion does not allow any direct representation of animal forms, consequently rugs woven under its influence take floral, geometric and vegetable forms. The Shiah sect of Moslems, however, numbering about 15,000,000, of whom 8,000,000 are Persians, do not regard representations of animals as unlawful. By the industry of this sect and that of infidels and of all who disregard the law of the Koran animal forms are seen on some Persian rugs.

The prayer rug was evidently invented for the purpose of providing the worshipers with one absolutely clean place on which to offer prayers. It is not lawful for a Moslem to pray on any place not perfectly clean, and unless each one has his own special rug he is not certain that the spot has not been polluted. With regard to the purity of the place of prayer Mohammedans are specially careful when making their pilgrimages, the rugs which they take with them having been preserved from pollution by being rolled up until the journey is begun or until the hour for prayer arrives. It does not matter to these followers of Mohammed how unclean a rug that is on the floor may be, because over it they place the prayer rug when their devotions begin.

The Turkish rugs made at Sivas are always woven of wool, and almost every hamlet carries on the industry of weaving in the homes. There are no factories, the young girls and women doing the work here as in other parts of Turkey. Sivas rugs are in most cases small, measuring about eight by four feet, but in these years larger and more attractive rugs are being made. Even the poorest families have fine rugs, for they regard them as valuable property, to be sold only under the pressure of great extremity. The weavers are so frugal in their manner of living that their daily earning of 15 to 19 cents is sufficient to supply their wants. Their food consists usually of rice and crushed wheat, with occasionally a small piece of mutton.

Smyrna is only a mart for the sale of comparatively inferior rugs that are made in the interior from the coarse hair of the Angora goat. These are woven in irregular designs and, although not artistic, are largely sought as coverings for the bare floors and to add warmth. The weaving of these rugs is crudely done by girls and women. Sometimes the loom is primitively constructed from the trunks of trees. The designs are very simple and have either been handed down from earlier generations or are supplied from the city.

Yuruk rugs are so called from a band of nomads who dwell among the mountains of Anatolia. They have large flocks of fine sheep and weave rugs of firm, even texture. The colors are very good, the field often of dark brown, ornamented with large designs.

About 200 years ago small embroidered rugs were largely made in Persia, chiefly at Ispahan. These were prayer rugs, and on each of them, near one end, was a small embroidered mark to show where the bit of sacred earth from Mecca was to be placed. In obedience to a law of the Koran that the head must be bowed to the ground in prayer this was touched by the forehead when the presentation was made, and so the letter of the law was carried out. The custom prevails. The Persian women who weave the finest prayer rugs seldom weave any other kind of rug.—"Rugs, Oriental and Occidental."

His Error.

Consumer—I say, what kind of a cigar do you call this? It's the worst tobacco I ever tasted.

Dealer—Beg your pardon, but you are wholly in error. There isn't a particle of tobacco in that cigar. It is so easy to be mistaken, don't you see?—Boston Transcript.

Won.

He had gone to ask her father for her hand in marriage. "Well, sir, what is it?" snapped out the old man. "Remember, I am a man of few words." "I don't care if you're a man of only one word if it's the right one," replied the suitor. He got the girl.—Philadelphia Record.

The most effusive argument a charming woman can use to a man is an appealing "Don't you think so?"—Smart Set.

NEW YORK CROWDS.

The Different Ways In Which They Impressed Two Men.

"What I like about New York," remarked a westerner, "is its tremendous energy. The crowds and bustle have upon me the exhilarating effect of a stimulant. As I move along among the masses on the sidewalks and look upon the perpetual stream of vehicles of all descriptions in the streets I am conscious of a buoyancy of spirit and an increased physical energy.

"I feel like going all the time, my mind is brighter and clearer, and, in fact, my whole being seems toned up. New York and its crowds are more beneficial to me than any resort I have ever struck. After a two weeks' stay here I return home feeling like another man."

"Well, that is strange," said the person to whom this statement was made. "Do you know New York has upon me just exactly the opposite effect. To me what I might term the surplusage of life here is depressing. I am by no means fond of solitude. I have lived in a moderate sized city all my life, and it bores me to stay in the country for any great length of time, but when I come to New York and am caught in the tides of humanity, see the overcrowded tenements and have my ears assaulted with the perpetual din of the streets I become positively melancholy.

"I feel what an insignificant atom I am, after all—no more than a drop of water in a great river—and the feeling oppresses me. It seems so like there was nobody here who cared what became of anybody. The only relief I find from the feeling is in the theaters. I go to a show every night while I am here, and of course I enjoy that immensely. But as soon as I have made the rounds of the shows I am ready to return home, where I know most everybody and there are many who care."—New York Times.

RAILWAY RUMBLES.

Our miles of railroad track exceed by more than 10,000 all the tracks of Europe.

The Dominion of Canada has granted $88,884,557 and 39,725,130 acres of land to railways.

More than 45,000,000 passengers a year go through the North Union and South Union stations in Boston.

In most European railways the principal difference between second class and first class lies in the color of the seat cushions, first class being usually red, second class gray.

The average cost of the body of a modern long electric car is $2,000, the average price of a set of double trucks for such a car is $600, and the average cost of the motor is $1,500, making the total cost of the car $4,100.

Some of the Austrian railways have followed the German custom of selling numbered seats in the cars of fast trains, both first and second class. An extra charge of from about 25 to 50 cents is made for these seats, according to distance.

The other day, just as a train was about to leave Kutas, in Hungary, for Palfalva, an official appeared and put seals on the wheels of the engine. The passengers had to get off and walk. The company was 296 crowns in arrears in payment of taxes. Next day the taxes were paid, and the train proceeded.

Why His Clock Was Slow.

There is an Italian fruit dealer with a well stocked store near one of the suburban railway stations, who has adopted a unique device, and one which shows a deep knowledge of human nature, to hold his own in competition with another dealer, whose stand is some fifty yards nearer the station than his own. A commuter was leisurely peeling a banana in his store the other day when the Italian remarked:

"You gotta fiv' minute before your train."

"No; twenty," replied the commuter, glancing at a big clock on the wall.

"Thata clock fifteen minute slow," said the Italian. "I keepa it slow. Peepl' used come in a-here, looka at clock, getta excite, go way, not buy. Time to buy at Pedro's stand, notta here. Now keepa clock slow, get mucha trade. No, I not letta peepl' miss train. I tella them after they buy de banan'."—New York Commercial Advertiser.

THE FIRST AERONAUT

HIS INITIAL FLIGHT INTO SPACE WAS AT PARIS IN 1783.

Pilatre des Rosiers Was the Pioneer of the Long Line of Daring Spirits Who Perished In Their Attempts to Navigate the Air.

The first attempts to make ascensions by means of balloons were made in Paris in the year 1783. Pilatre des Rosiers was the first and most illustrious of the long list of aeronauts who have fallen victims to their desire to advance the art of aerostatics.

In July and August of the year 1783 balloons filled with hydrogen gas were sent up from Paris, and in September at Versailles the first balloon was sent up freighted with living animals.

In the same year Montgolfier constructed a balloon which he claimed would be capable of carrying passengers, his workshop being in the gardens of the Faubourg St. Antoine. The balloon was sixty feet in height and forty-eight broad. Its exterior was richly painted and embroidered, there being represented upon it the twelve signs of the zodiac, the arms of the king of France and numberless fleurs-de-lis and lower down, amid a crowd of grotesque heads and garlands of flowers, a flock of eagles, with extended wings, that seemed to be flying and supporting the huge balloon upon their shoulders.

Below the balloon proper was constructed a circular platform of wickerwork, covered with silk, which was used as a car. This platform was very large and was surrounded by a balustrade to prevent the aeronauts from falling out. In the center of this platform or car was an opening, below which was suspended by chains an iron stove, which was to be used for rarefying the air in the balloon, while in one corner was a magazine intended for the storing up of an immense quantity of straw, which served as fuel.

Pilatre des Rosiers, generally alone, but at one time accompanied by the Marquis d'Arlandes and on another occasion by M. Girond de Villette, had ascended in the balloon without cutting the rope which held it captive to a height of 1,290 feet.

Rosiers had much difficulty in obtaining permission from the king to make an ascent without being held down by the rope, but consent was at last secured, and on the 20th of November, 1783, everything was made ready. During the day the wind and rain were violent, and it was found necessary to postpone the ascent. The next day, the 21st, the weather was more favorable, and at 1:30 in the afternoon in the presence of the dauphin and his suit Pilatre des Rosiers and the Marquis d'Arlandes set out together from the Jardins de la Muette upon the first aerial voyage ever attempted and performed. The wind was still very rough and the weather stormy, but in spite of these disadvantages the balloon rose rapidly.

Having passed over Paris and become free from all fear of getting entangled among the buildings of the city, the aeronauts suffered themselves to descend considerably until they found themselves in a fresh current of air, which bore them in a southerly direction.

After proceeding a few miles farther the fire was allowed to die out, and the balloon descended about five miles from Paris. When the aeronauts returned to the Chateau de la Muette, they were greeted with the utmost enthusiasm by the assembled crowds. Benjamin Franklin was a witness of the whole spectacle, and when asked what he thought of it he replied, "I have seen a child born which may one day be a man."

Aerostatics had advanced to such a degree that on the 7th of January, 1785, Blanchard, a rival of Rosiers, crossed over the channel from Dover to Calais.

Rosiers was spurred on by Blanchard's success and set to work constructing a balloon which, when completed, he called an aeromontgolfier. It consisted of an immense balloon of hydrogen gas, with a large cylinder placed under it, the use of it being to rarefy the air without losing gas.

When a favorable day had arrived, Pilatre for the last time made his preparations. He was assisted by a Boulogne physician named Romain, and on June 15, 1785, they stepped into the basket, the ropes were cast off, and the balloon rose with the utmost majesty from the earth.

When it had risen about 200 feet, it struck a fresh current of air which took it directly toward the sea. It soon found another current which rapidly carried it back again. It possibly may have been the desire of the aeronauts to descend to find a more favorable current of air, for while opening the valve to let the cold air into his cylinder unfortunately a huge rent was made in the balloon. The consequences were immediate and horrible. At that time the balloon was 1,700 feet above the surface of the earth. A few moments afterward the two aeronauts lay on the ground dead and horribly mutilated.

Near the spot where Pilatre des Rosiers was buried a monument was erected in 1853 to commemorate the almost miraculous crossing of the sea by Blanchard, upon the very spot of earth on which that intrepid aeronaut descended. He had become for France a hero, and numbers of inscriptions are still readable.—New York Times.

Spools and Thread.

The spool mills use about 82,000 cords, or 16,000,000 feet, of birch annually, turning out 800,000,000 spools, each spool large enough to carry 200 yards of thread. The amount of thread that could be wound upon these 800,000,000 spools would reach 3,000 times around the world at the equator and leave a little for mending.

HALLOWEEN.

On Thursday, the 31st of October, will be halloween, a day much celebrated and enjoyed by the young folks in the different communities.

Why not improve the celebration of this day by regularly organized house parties, instead of the rougher mode of upsetting everything, in which could be introduced all the halloween plays and games and would be enjoyed by old and young. Many hints as to the management of these parties can be gained from numerous books now published on the management of social parties.

AN UNEQUALED RECORD.

THERE IS A RAPIDLY INCREASING VOLUME OF BELLEFONTE EVIDENCE ROLLING UP FOR THE GREAT MEDICINE, DR. A. W. CHASE'S NERVE PILLS.

It would seem that hardly anyone can take Dr. A. W. Chase's Nerve Pills without receiving marked benefit. The wonderful action of this medicine in putting people on their feet who are in a weak run down condition is the talk of every place they are known. It is only a short time since they first came to Bellefonte yet today they are more in evidence for merit with Bellefonte people than all other medicines combined.

Soloman Garrett of No. 301 Allegheny St., Bellefonte, Pa., says:—"I had been feeling very much run down for a long time. My head ached a great deal and I felt tired and sore all over. I was also bothered with sleeplessness at night. I saw Dr. A. W. Chase's Nerve Pills so highly recommended I got a box at Krumrine's Drug Store and they did me a great deal of good. I felt first rate after using them and have no hesitation in recommending them to others."

By calling at Krumrine's drug store information can be obtained regarding this great success of Dr. A. W. Chase's Nerve Pills and how they were first introduced by proof of their merit.

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

THE CENTAUR COMPANY, NEW YORK CITY.

EMBEZZLED $12,000.

First National Bank of Tyrone the Loser by Defalcation of Bookkeeper.

Wednesday's Tyrone *Herald* says:

D. M. Wolf, bookkeeper and general clerk for the Frst National bank, has allowed himself to fall into the snare of the evil one, and by the manipulation of figures from time to time appropriated to himself twelve thousand dollars. Recently Cashier D. S. Kloss discovered a suspicious condition of things, and a full investigation of the accounts and papers of the bank was made with the result that with everything accurately run down to the last balance sheet the defalcation proves in neat figures to be twelve thousand dollars. The bank holds the bond of the American Surety company, of New York, for ten thousand dollars, protecting the institution against loss through Wolf to that amount. The other two thousand dollars the bank will lose.

Though he has not been in the bank the past week, Wolf has been at his home, but we are told that he left town this morning. No information has yet been made against him, but it is likely the surety company, who has been notified, will proceed against him. What possessed Wolfe to appropriate that which was not his own no one can tell. And it is a surprise to everybody, for he has been held in high esteem in the community. There are no outward indications that he was spending more money than his salary would justify. What he did with the money appropriated from the bank funds is not known. He says himself that it seemed to slip away from him from time to time as he got it, and he knows not where it went.

—A vein of coal has been found on the farm of Joseph W. Kyle west of Milroy, Mifflin county, and there is said to be much excitement in that vicinity in consequence of the discovery.

SCOTT'S EMULSION

is a food medicine for the baby that is thin and not well nourished and for the mother whose milk does not nourish the baby.

It is equally good for the boy or girl who is thin and pale and not well nourished by their food; also for the anæmic or consumptive adult that is losing flesh and strength.

In fact, for all conditions of wasting, it is the food medicine that will nourish and build up the body and give new life and energy when all other means fail.

Should be taken in summer as well as winter.

Will Celebrate Anniversary.

On October 27, the Ancient Order United Workmen lodges will celebrate the thirty-third anniversary of the organization of the order, which was founded at Meadville, this state, with ten members. The growth of the fraternity has been phenomenal. The supreme secretary reports that on August 1 last, the order had 420,310 members in good standing. During July there was paid out $835.922,22, and since organization to August 1 last, $111,291,47 was paid to widows and orphans of deceased members.

—Mrs. James Bathurst, of Mount Eagle died on Monday after suffering with typhoid fever for the past six weeks. She was aged about 70 years and is survived by a number of children. Funeral took place on Wednesday, October 15, 1901. Interment in the Curtin cemetery.

—Ridgway had a four hours snow storm on Thursday afternoon. The first of the season.

THE BANKERS ADJOURN

Final Address Was Made by James W. Eckles.

HE MAKES VARIOUS SUGGESTIONS

Agrees With Secretary Gage That Our Financial System is Susceptible to Improvements—Would Retire Legal Tenders.

NAMES OF THE OFFICERS ELECTED

MILWAUKEE, October 18.—James W. Eckles, of Chicago, former comptroller of the currency, addressed the American Bakers' association convention yesterday. He spoke on "Assets Currency," and said the note issuing functions of the country are not what they ought to be. He said the papers delivered by A. B. Stickney and Secretary Gage Wednesday were thoughtful in suggestion and may well be considered by the association. He agreed with Secretary Gage that the financial system had not reached that point of developement where a people of so much progress, so much energy and force as the people of the United States have a right to expect that it should. He would like to see legal tenders of the government retired as there is always a possibility of their re-issue in a form that would be detrimental to the country. He would like to see the abolishment of the sub-treasury of the country. It stands as a menace to the trade and commerce of the country because it locks up the money. The sub-treasury should be conducted as is the business of a private individual or large corporation. He would restrict revenues where the credit of the country could be maintained. He believed in great banks and such a system of banks. We have an administration that commands the confidence of the people and admiration of the world, and there is no reason why we might not well discuss with frankness every public question.

At the conclusion of Mr. Eckles's speech he was vociforously applauded and thanked by the convention by a rising vote.

Officers were elected as follows: President, Myron T. Herrick, Cleveland; vice-president, Caldwell Hardy, Norfolk, Va. chairman of the executive committee, Frank G. Bigelow, Milwaukee; treasurer, George M. Reynolds, Chicago. James R. McCallister, of Pennsylvania, was elected a member of the executive council.

The following memorials on the death of President McKinley was adopted by a rising voter

We, the members of the American Banker's association, are saddened by the death of our honored chief executive, William McKinley.

His fame rests securely in the nation that he loved and helped to save.

We acknowledge to the fullest our obligations to his memory and desire to put on record this simple testimony to his high character and pure life,

Most deeply do we sympathize with Mrs. McKinley and his family, who have sustained so much greater loss, and may this in some small degree testify to our love and respect for him and our sorrow for his death.

The convention then adjourned sine die.

Tot Causes Night Alarm.

"One night my brother's baby was taken with Croup," writes Mrs. J. C Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor; so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. 50c and $1 00. Trial bottles free at F. Potts Green's Drug Store.

Killed a Strange Animal.

A resident of Hammersley's Fork, while out in the woods with his dog and gun a few days ago, came across a queer looking animal, evidently a cross between a sheep and a deer, and for a moment he stood spellbound looking at the queer creation and then a bullet from his rifle laid the wonder of the hills low. The animal was slightly larger than a sheep, but instead of wool had long straight hair like a deer, and weighed about 100 pounds.

A Lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

—Are you going to try your luck at hunting?

"The square peg in the round hole" figuratively expresses the use of means unsuited to the desired end. A great many people who have been cured of dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition by the use of Dr. Pierce's Golden Medical Discovery say: "We tried many medicines with only temporary benefit. It was not until we began the use of 'Golden Medical Discovery' that we found a complete and lasting cure."

It is undoubtedly true that Dr. Pierce's Golden Medical Discovery holds the record for the perfect and permanent cure of indigestion and other diseases of the stomach and associated organs of digestion and nutrition. It is not a palliative. It cures the cause of disease and builds up the body with solid healthy flesh, not flabby fat.

"It is with pleasure that I tell you what Dr. Pierce's Golden Medical Discovery and 'Pellets' have done for me," writes Mrs. T. M. Palmer, of Reede, Kaufman Co., Texas. "Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two weeks on milk and even that gave me pain. I felt as though I would starve to death. Three doctors attended me—one said I had dyspepsia, two said catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried other patent medicine; got no better, and I grew so weak and nervous my heart would flutter. I could not do any kind of work. Now I can do my house work very well; *am gaining in flesh and strength*, and can eat anything I want."

Accept no substitute for Dr. Pierce's Golden Medical Discovery.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one cent stamps for the paper covered book, or 31 stamps for the cloth bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Death of Mrs. George Bartholomew.

Mrs. George Bartholomew aged seventy-three years and thirteen days, died Sunday, Oct. 13th, at her home in Howard after an illness of one week. The funeral took place the following Wednesday, Rev. Frick, of the Disciple church, of which deceased was a member, officiating.

The deceased and her husband, who survives, for many years lived at Hublersburg, but fifteen years ago took up their residence at Howard. The family consisted of six children. The dead are: Frank, who was accidentally killed at Centre Hall; Mary E., of Philipsburg, and Sarah, who died in infancy. The surviving children are: Rebecca, wife of Rev. M. S. Romig, pastor of the Lutheran church at Shanksville, Somerset county; Kate, wife of Elmer Ertle, of Howard; Jennie, at home; and W. H. Bartholomew, of Centre Hall.

"My Heart was Thumping My Life Out,"

Is the way Mrs. R. H. Wright, of Brockville, Ont., described her sufferings from smothering, fluttering and palpitation. After trying many remedies without benefit six bottles of Dr. Agnew's Cure for the Heart restored her to perfect health. The first dose gave almost instant relief and in a day suffering ceased altogether.—26

Big Timber Deal.

The Clearfield Reflexman's Journal says after a year's prospecting, estimating, etc., A. G. Graham, acting for the Surveyor Run Lumber company, of which he is a member, closed the purchase of all the timber on the 700 acres of the estate of the late Dr. M. Stewart, of Burnside township, Centre county, near Pine Glen. The heirs conveying this tract are Patsey E. Stewart, widow; Wm. Stewart, Seattle, Wash.; Dr. W. S. Stewart, Wilkesbarre, and D. G. Stewart, of Moshannon. The consideration of the timber alone was $25,000, and the purchasers have six years to remove the same. There are 8,000,000 feet on this tract and 2,000,000 of logs will be cut and floated this year. A. G Graham and W. A. Porter, of the company, were in Williamsport last week and sold the output of the entire tract to Elias Deemer. There will be an immense lot of bark which will be pealed next year.

Ready For Dedication.

The handsome new Baileyville grammar school, just finished, will be dedicated Oct. 25th under the direction of Superintendent Gramley, with other speakers, and good music. The building is a one and a half story Gothic structure, painted in white with a trimming of green. Two schools, the primary, taught by Miss Sadie Heberling, and the grammar, taught by Professor Gates, occupy the ground floor, while above is a commodious and well lighted attic. Squire Keller, of Pine Grove Mills, was the contractor and builder, and the price was $1300.

A Cozy Cheerful Office.

One of the prettiest little offices in town is that of the Beaver Lumber Co. They have lately remodeled it and without a doubt it is as cheerful an office as you will see any where. Mr. Newlin Irwin who is book keeper for this company takes great pride in showing his friends his place of business and always gives them a cordial welcome.

ADDRESSES MADE AND PAPERS READ

Resolution Adopted Calling for the Punishment of Anarchists—The McKinley National Memorial Association Indorsed.

TRUST SECTION HOLDS MEETING

MILWAUKEE, Oct. 17.—At yesterday's session of the American Bankers' Association convention bankers from various sections of the country in brief speeches reported business in a thoroughly satisfactory condition.

Various resolutions which were introduced Tuesday and referred to the executive council, were adopted after being approved by the council. These included resolutions asking Congress to repeal the war revenue act relating to stamps; legislation for the punishment of anarchists; the return of drafts, checks, etc., where stamps have been redeemed; indemnifying senders of unsigned certificates which may have been stolen.

On motion of Myron T. Herrick, of Cleveland, a resolution was adopted commending the McKinley National Memorial Association, organized for the purpose of the erection of suitable memorials in Canton and Washington for the purpose of commemorating the life and deeds of the martyred president, and that members of the association shall receive subscriptions to aid the project at their respective banking houses.

A. B. Stickney, president of the Chicago Great Western Railway company, was then introduced and read an interesting paper on "Medium Exchange and Banking Function."

Secretary of the Treasury Lyman J. Gage was introduced by President Trowbridge at the conclusion of Mr. Stickney's paper. Mr. Gage was on the program for today, but being in the city and desiring to leave before the convention came to a close a change was made to enable him to speak yesterday.

When Secretary Gage finished speaking the convention, by a rising vote, expressed thanks to the honorable secretary of the treasury for his informal talk. The convention then adjourned until today.

The trust section of the American Bankers' Association convened in its fifth annual session here yesterday.

Charles F. Phillips, of New York, read a paper on "The Business in Foreign Countries Analogus to that of Trust Companies in the United States." A paper entitled "Powers of Fiduciaries Outside the State of Their Appointment," was read by Frederick Vierling, of St. Louis.

H. M. Young, of Chicago, spoke in part as follows:

"Trust company forms should tell their story plainly, so plainly that any one of average intelligence could understand how they were to be used. Through all the books there should run a chain of entries, so as to make them bind together. It should never require the service of a chartered account to check a proper system of trust accounting. Errors should be discovered automatically. The securities should never be in the custody or control of the same clerk that keeps the books. There should be a double custody of all securities, and every trust should have a number by which it is known through all the records. All papers referring to these trusts should bear the same number to facilitate the work of tracing them."

The Euchre Party.

The Progressive Euchre party held Wednesday evening in St. John's Hall proved a highly successful social event and was largely attended. There were twenty-three tables at which the game made famous by Hoyle was in progress.

The ladies prize was won by Miss Kate McGowan, her reward being a very beautiful pin cushion. The gentleman's prize a box of fine Havana cigars, was taken by Thomas Flack. The booby prize which consisted of a bunch of beet tops neatly tied with a blue ribbon fell to the lot of Miss Rose Dusling.

The affair turned out quite successfully all through and it is hoped is a good omen of the success which will befall future events of a like kind at St. John's Hall during the coming winter.

Buffalo Excursionists.

A jolly crowd of people from Boalsburg, Linden Hall and Centre Hall left Thursday to take in the sights at the Pan-American Exposition at Buffalo. They are as follows: County Commissioner Philip Meyer and wife; Frank McFarland, William Mothersbaugh, George Fortney, William Woods, John Gingerich, Dr. L. E. Kidder, J. M. Wieland, W. A. Baumgardner, of Boalsburg; Jacob Meyer, of Linden Hall and Adam Ripka, of Centre Hill.

Quigley—Good.

St. Paul's Episcopal church at Lock Haven was the scene of a brilliant wedding event Wednesday evening at 8:30 o'clock when James E. Quigley, of Pittsburg led to the altar Miss Sarah B. Good, daughter of Mr. and Mrs. D. F. Good, of Lock Haven. The ceremony was performed by Rev. Lewis Nichols, pastor of the church. The ushers were Samuel Cutler and William Price Hull, of Philadelphia; S. G Williamson, of Altoona. Sedgwick Kistler, Orrin S. Good and Dean R. Good, of Lock Haven.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

SWEET WEDDING BELLS.

Peal Forth Merrily for Samuel Foster Eldredge and Miss Jessie Laurie.

The Presbyterian parsonage on North Spring street was the scene of a very pretty wedding event Thureday evening at 5 o'clock when Samuel Foster Eldredge, of Cape May City, New Jersey, was united in holy bonds of wedlock to Miss Jessie Laurie, the pretty and accomplished daughter of Rev. William Laurie D. D. LL. D., pastor of the Presbyterian church.

Promptly at the appointed hour the bridal party entered the west parlor to the music of Lohengrin's wedding march as played by Mrs. J. Malcolm Laurie. The bride was attended by her sister, Miss Bertha Laurie as maid of honor and little Miss Janet H. Potter, as flower girl. Ralph Cummings, of Cape May, a student at State College and who plays centre on States foot ball team, was best man.

The ceremony was performed by Dr. Laurie and J. Malcolm Laurie, a cousin, gave the bride away.

The parlor was very beautifully decorated with palms, ferns and cut flowers.

The bride was gowned in white point d'eprit over white taffeta silk.

Miss Bertha Laurie, the maid of honor, wore white silk batist trimmed with green.

Little Miss Janet Potter, the flower girl, wore white batist.

Only the immediate families of the bride and groom witnessed the ceremony and after it was over and congratulations tendered they all sat down to a delightful wedding supper served by caterer Joseph Ceader in his usual excellent style.

From seven until eight o'clock there was a reception which was quite largely attended. At 8:30 the bridal couple departed for an extended wedding tour to eastern cities after which they will be at home to their many friends at Cape May, N. J.

The bride is to well known to our readers to need any extended notice of her good qualities.

Suffice it is to say that she is educated, refined and one who will make a fitting helpmate to her most worthy husband.

The groom is also well known here having been a student at the Academy. He is now a success-ful young attorney at Cape May and a son of Capt. James Eldredge, of that place.

The bride was the recipient of many beautiful and costly presents from her many friends.

The guests from a distance were Capt. James Eldredge, wife, daughter Miss Clemintine and son Bolton of Cape May; Mrs. Frank Pendleton and Miss Anna Reinhart, of Philadelphia; Mrs. J. E. Horn of Philipsburg; Mr. and Mrs. Curtis Foster, of Norfolk, Va.; Miss Mayde Smith, Miss Helen Landis, Hollidaysburg; Miss Ann Shaffner, Philadelphia, and Mrs. John Porter Lyon, of Penna. Furnace.

McCORMICK-HEWES.

A Quiet wedding Which was Celebrated at the Methodist Parsonage Monday Night.

The Methodist parsonage on East Linn street was the scene of a quiet but pretty wedding ceremony Monday evening at 6 o'clock which united in marriage Hon. John T. McCormick and Miss Frances Katherine Hewes, both of this place. There were no attendants and the ceremony was performed by Rev. W. P. Shriner, D. D. After the ceremony Mr. and Mrs. McCormick were driven to the Central depot where they took the 6:40 train for a wedding tour to be spent at the Pan-American Exposition and eastern cities.

The bride has been a teacher in the Public schools of Bellefonte for several years past while the groom is an ex-member of the legislature and at present local superintendent of the United Telephone and Telegraph Co.

Ralph Mallory a Benedict.

On Thursday evening at the home of the bride at 2825 Oxford street Philadelphia, Mr. Ralph Mallory senior member of the firm of Mallory & Taylor photographers, of Bellefonte and Miss Mayme A. Murphy were united in marriage. The groom is one of our popular young business men and his bride, who has been a frequent visitor in Bellefonte, is an accomplished young lady who has made friends here by her charming manners and attractive qualities. The father of the groom, Mr. George Mallory, and his sister Miss Edna were present at the ceremony. The REPUBLICAN extends hearty congratulations and best wishes to the young couple.
